4. Connected Call Usage Charges (Inbound + Outbound)

A connected call is any inbound or outbound call answered by your AI Voice Agent.

Billing applies equally to:

- **Inbound connected calls**
- **Outbound connected calls**

Rate: \$0.25 ex-GST per connected call

One call = one usage credit.

Not billed:

- **Missed calls**
- **Voicemails**
- **Busy tones**
- **No-answer outbound attempts**

5. Usage Credits & Auto-Top-Up System

To ensure uninterrupted service, InSpra AI uses a prepaid usage credit system.

Initial Allocation

Onboarding includes a prepaid block of:

- 8,000 call credits valued at \$2,000 ex-GST

This is not free usage; it is a prepaid balance deducted per connected call.

Monthly Reconciliation

At the end of each billing cycle:

- Connected calls are counted
- Usage is charged at \$0.25 per call
 - Example: 6,000 calls → \$1,500 ex-GST
- After payment is processed, a new 8,000-call block (\$2,000 ex-GST) is issued automatically

Automatic Top-Up

If you exhaust your usage block before the end of the billing period:

- A new 8,000-call block is automatically added.
- \$2,000 ex-GST is automatically debited.
- Top-ups occur instantly to prevent service interruption.
- This repeats each time credits run out.

6. Payment Retry Policy

When will Inspira retry a failed payment?

If a payment fails (monthly subscription, usage reconciliation, or auto-top-up):

- Inspira will automatically retry the payment every 3 days.
- Email notifications will be sent after each failed attempt.
- If payment remains outstanding after 5 business days, services may be paused until the account is brought up to date.

7. Mandatory Email Responsibility Clause

The following clause must be accepted as part of the agreement:

"It is your responsibility to check your emails regularly for billing notifications, payment confirmations, usage alerts, and failed payment reminders."

All financial notices are delivered via email.

8. Additional Data Charges

Additional data services—including enrichment, lookups, scraping, verification, or external API usage—are billed separately per the pricing schedule below:

 **Data Pricing Document:**

These charges apply in addition to subscriptions and call usage.

9. Direct Debit Requirement

All Clients must maintain an active direct debit mandate.

This authorises InSpra to process:

- Monthly subscription fees
- Usage reconciliations
- Automatic top-ups

This authority remains active until revoked with 14 days' written notice.
